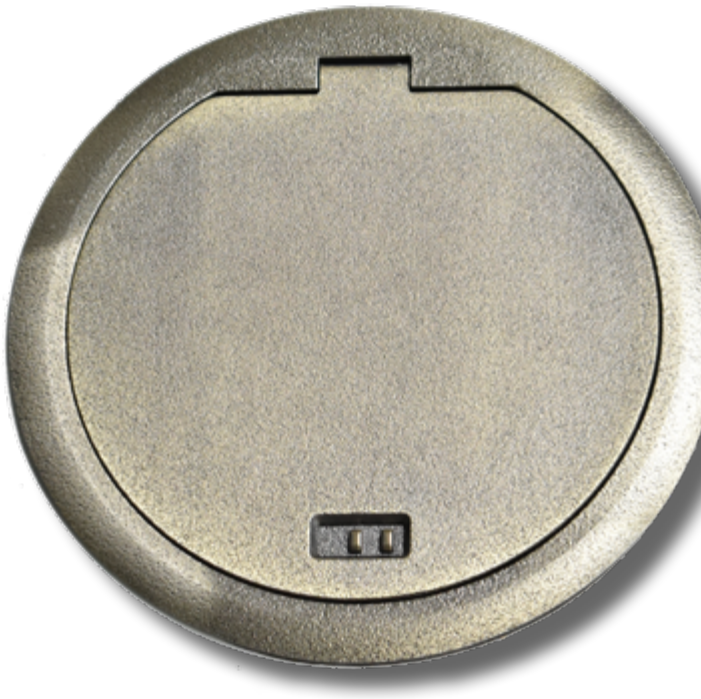
GESRM4

Decorative IP Floor Outlet



While larger than our GESRM2, the GESRM4 floor outlet box is also dust and water resistant to IP65 when closed. It is ideal for PVC and tiled internal floors that need wet cleaning. The unit can be fitted with two general purpose power outlets and two RJ45 data / telephone outlets. The GESRM4 is also available as a directional spotlight.

The IP65 rated lid section is manufactured from die cast zinc non-slip surfacing.
