

TELESCOPING PULLING POLE

Another complement to our 6mm Push Pull Rods.

Standard Telescoping Pulling Pole

Two telescoping pulling poles are available for use in long spans and in hard to reach areas in ceilings, floors and crawl spaces.

Product Code: **TP16-1** 30mm diameter - 4.8mtrs extended - 0.6mtr long collapsed
TP26-1 30mm diameter - 7.9mtrs extended - 0.9mtr long collapsed

Heavy Duty Telescoping Pulling Pole

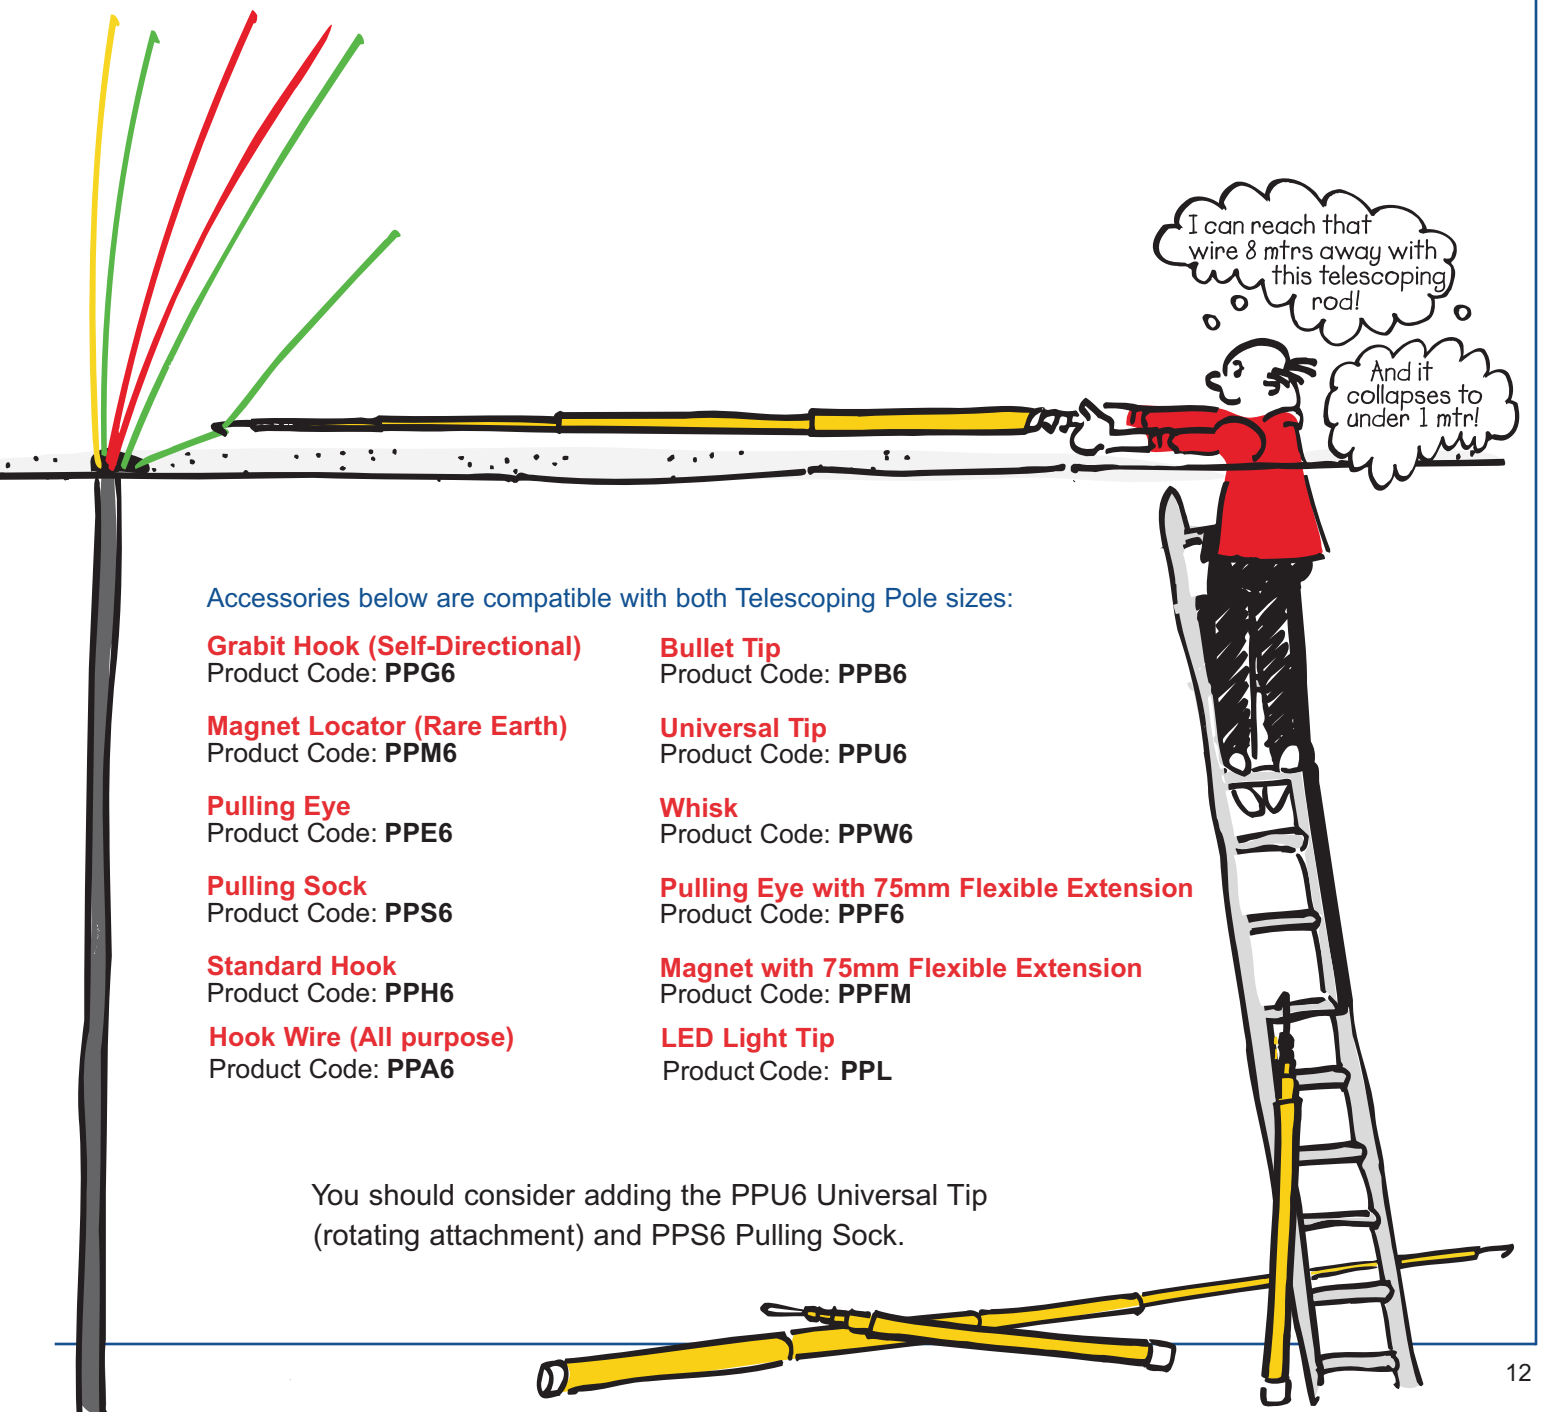

Two additional extra strength telescoping pulling poles are now available and both come with a metal ring to accommodate the cord.

Product Code: **TP16HD** 50mm diameter - 4.8mtrs extended - 0.6mtr long collapsed
TP26HD 50mm diameter - 7.9mtrs extended - 0.9mtr long collapsed

- Very lightweight, about 2kg.
- Standard poles and heavy duty poles available.
- Non conductive, wound filament fibreglass won't rust or corrode.
- Polyester resin baked enamel coating.
- Uses all interchangeable attachments supplied with Push Pull rods.

Extremely light - less than 2kg.

From 0.9mtrs to 7.9mtrs (shown with PPG6 attached)
