

STEEL / PLASTIC & NYLON FISH TAPE / ROD

For Controlled Flexibility and Strength

Fish Tape (Steel - Plastic)

Manufactured in Plastic monofilament with threaded steel interior wire, this fish tape comes in a plastic cover for electrical insulation.

Product Code: **JS4-10** - 4mm diameter - 10mtrs length
JS4-20 - 4mm diameter - 20mtrs length
JS4-30 - 4mm diameter - 30mtrs length

Fully Insulated.

Fish Tape (Nylon)

This highly flexible nylon Fish Tape is manufactured in pure nylon monofilament.

Product Code: **JN4-10** - 4mm diameter - 10mtrs length
JN4-20 - 4mm diameter - 20mtrs length

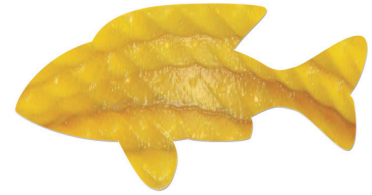

A perfect compliment to our push pull rods.

- Extremely portable and lightweight.
- Both come with a flexible curve guide head and a large bronze pulling head to help avoid blockages.
- Heads are pressed and threaded to the plastic which offers a higher breaking load.
- Available in various lengths.
- Comes packaged in sealed bags.
