

STEEL FISH TAPE / ROD

Multi-directional

Fish Tape/Rods (Steel)

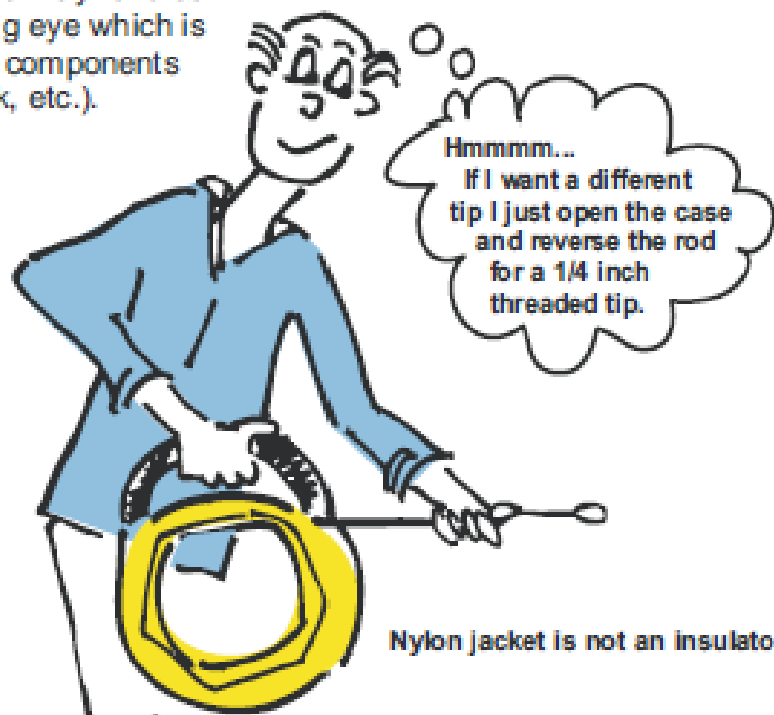

Enjoy the same features of our Push Pull rods coiled in a translucent plastic carrying case. Remember, lengths can be customized to fit.

Product Code: **JF100** - 30mtr length - 5mm diameter

JF150 - 45mtr length - 5mm diameter

Another perfect complement to our quarter-inch Push Pull Rods.

- Stranded* steel fish tape with extra strength nylon coating.
- Impact resistant and easily opened translucent plastic case provides clear viewing, keeps out dirt and withstands any job site condition.
- Handle and textured surface also provides an easy grip and is lightweight and easily portable.
- Heavy nylon coating is self lubricating and won't allow rust or corrosion.
- Rod plays out and returns smoothly.
- Comes with two tips: elongated pulling eye is on the forward end or you may reverse the tape for threaded pulling eye which is easily exchanged for other components (magnet, hook, pulling sock, etc.).
