

POP-UP

In Desk Solutions

CMS Pop-Up is an In-desk module that provides quick and practical access to Power and/or USB. The intuitive design combines the practical accessibility of an on-desk rail, whilst maintaining the clutter free design of a recessed module. Purposed to compliment single workstations, hot-desks, or training rooms, the Pop-Up can be configured to deliver a combination of Power and/or USB outlets to suit any commercial office, hospitality or residential application.

Colours Available

White Black
