

INTERNATIONAL POWER MODULE

Clean Design With Space To Move

A fresh and clean surface design, delivering a power module which is both aesthetic and ergonomic to use.

It also features angled outlets, allowing easy access for non-standard plugs and wall-power adaptors.

Ease Of Installation

The detachable fascia and revised module offers added flexibility to installers

Rear clip-in access for pre-configured and cable duct/tray in-screen installations

Concealed screw-mount holes for surface-mount applications
