

FLIP BOX

In Desk Solutions

CMS Electracom Flip is a unique slimline in-desk module offering power, data and USB charging technology into workstations, collaborative spaces conference areas and even soft seating.

Each power outlet has its own spring-loaded retractable cover so that it is hidden away when not in use. The data provisions are available in two mechanisms; flip or sliding lid with an ID labelling feature.

Colours Available

White Black

Key Features

- » Spring mechanism enables touch to open/close
- » Clean and unobtrusive profile when retracted
- » Drops into a simple rectangular cut-out
- » Compatible with a range of CMS outlet solutions

Configures with:

Auto Switched Power Module
