## NOVA & VIVA

### Above & Below Desk Power Rail Series

Our Nova and Viva began as a blank sheet design, a passion project to re-invent personal access to power and technology above the desk.

These Power Rails start with a one-piece moulded design, with complimentary finishing touches including deep Perspex gloss and textured-matt finished fascias, and versatile styling for the body, including optioned soft-touch fabric to present even more options to deliver contrast or concealment within the application space.

### Standard Colours Available
