USB Charging

Our new 118W Inline USB Fast Charger is a modular charging solution, designed for enterprise, delivering high charging output for most laptops and smartphones. It offers an amazing 118W of power output, split between its 12 Pin and USB-C connection.

This module has been designed to be integrated with our softwiring, making it perfect for new and existing fitouts. When used with our WGCB clip, it can be mounted on our wire grid baskets or be screwed to a wall/up to the underside of a table.
