

SOFTWIRED GPOS

SW17 Series

Softwiring is a plug-and-play system which supersedes the labour-intensive method of hardwiring by utilising a modular backbone, enabling a versatile and tool-less installation between the ceiling, workstation and floor.

Softwiring has transformed the building industry by adding flexibility and modularity whilst reducing installation time, waste of material, and overall cost. Softwiring (or modular wiring) enables the easy re-use of wiring when re-configuring workstations, without the waste associated with hard wiring.

Compatible with the full range of CMS Softwiring Leads and Accessories.

Auto Switched GPO

SW1702**	Dual Auto Switched Power Module Cut Out Size: 130.5 x 41.5mm
SW1712**	Dual Auto Switched Power Module Mounted In Thick Panel Bracket Cut Out Size: 190.5 x 55.5mm
SW1704**	Quad Auto Switched Power Module Cut Out Size: 230.5mm x 41.5mm
SW1714**	Quad Auto Switched Power Module Mounted In Thick Panel Bracket Cut Out Size: 290.5 x 55.5mm

Thick Panel Bracket

FM2A#	Deep Panel Bracket For SW1702 Power Module 2-12mm
FM4A#	Deep Panel Bracket For SW1702 Power Module 2-12mm

** Denotes socket colour: black (BK) , white (WT), silver (SL), red (RD)

# Denotes bracket colour: black (BK) , white (WT)

- Use of cleaning agents: Please ensure cleaning agents are compatible for use on moulded polycarbonate surfaces. Should any sign of degradation, cracking or discolouration be present or occur, immediately discontinue the use of the cleaning agent.
