AXESS - FLEXIBLE & RIGID

Umbilical Cable Management - Ceiling to Floor or Desk

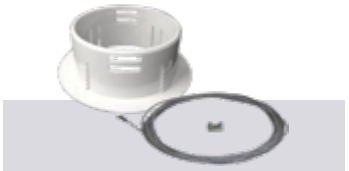

A fully featured cable management system with a designer edge, the snap-together 'Rigid Mode' provides a self-supporting cable column as an integrated option within the system. At the same time, the snap-apart 'Flexi Mode' provides all the flexibility you need in an umbilical product.

With its unique door innovation, the Axess umbilical has integrated doors that allow free access to cables at any time. When used from the floor to the desk, Axess provides an attractive and flexible solution for cable distribution.
