

FIT-OUT SOFTWIRING

Starters, Connectors, Leads, and Nodes

Softwiring (or modular wiring) is a plug-and-play system which supersedes the labour-intensive method of hardwiring by utilising a modular backbone – enabling a versatile and tool-less installation between the ceiling, workstation and floor.

Fit-Out Softwiring is the best solution for furniture and desk power installation. The plug-and-play daisy chain system uses CMS Electracom's TAG connector and can be tailored for an array of fit-out application.

CMS Electracom softwiring is compliant to all relevant ASNZS Electrical Standards, ensuring quality and peace of mind.

Starter Sockets

SW84002**	Single 20A Universal Starter Socket
SW84011**	Single Side Entry 20A Starter Socket
SW84012**	Double Side Entry 20A Starter Socket

Adaptors

L3T**	T-Piece (1 In 2 Out Splitter)
L3D**	D-Piece (1 In 3 Out Splitter)
L3R**	Tag Right Angle In/Out Adaptor
L3U**	Tag 'U' Adaptor (1 In 1 Out Splitter)
L3F**	Tag 'F' Adaptor (1 In 2 Out Splitter)

Rewireable Sockets

L3.10**	Rewireable - Male Tag Plug 20A
L3.20**	Rewireable - Female Tag Socket 20A

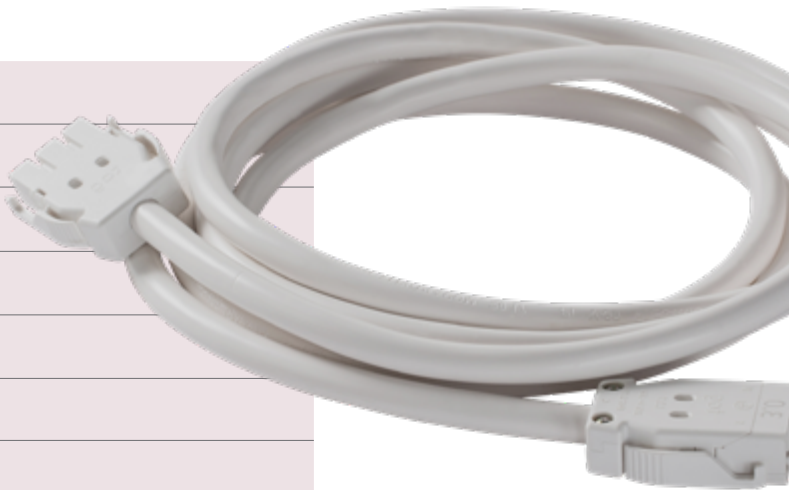

Notes:

- **Colour Options: Black (BK), White (WT)

Softwiring Leads

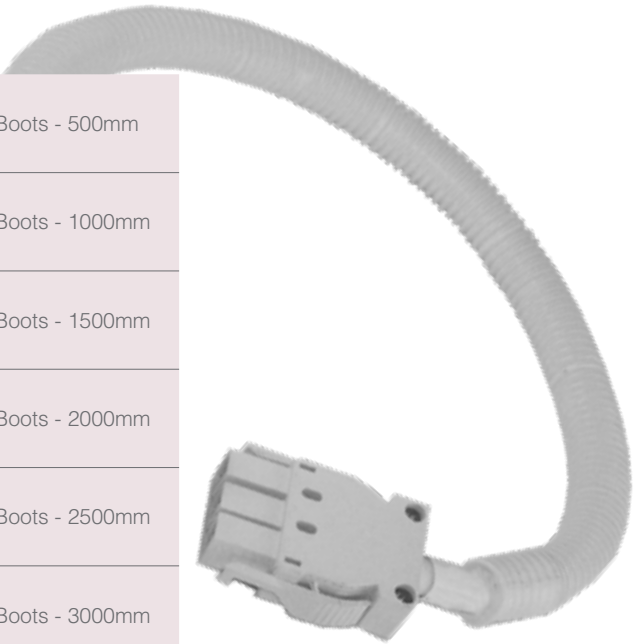

Standard Interconnecting Leads

SW5203**	20A Interconnecting Lead - 300mm
SW5205**	20A Interconnecting Lead - 500mm
SW5210**	20A Interconnecting Lead - 1000mm
SW5215**	20A Interconnecting Lead - 1500mm
SW5220**	20A Interconnecting Lead - 2000mm
SW5225**	20A Interconnecting Lead - 2500mm
SW5230**	20A Interconnecting Lead - 3000mm
SW5235**	20A Interconnecting Lead - 3500mm
SW5240**	20A Interconnecting Lead - 4000mm
SW5250**	20A Interconnecting Lead - 5000mm
SW52100**	20A Interconnecting Lead - 10000mm

Flex Conduit Interconnecting Leads

SWF5205**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 500mm
SWF5210**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 1000mm
SWF5215**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 1500mm
SWF5220**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 2000mm
SWF5225**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 2500mm
SWF5230**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 3000mm
SWF5235**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 3500mm
SWF5240**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 4000mm
SWF5250**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 5000mm
SWF52100**	20A Interconnecting Lead In Flex Conduit With Heat Shrunk Boots - 10000mm

Notes:

- **Colour Options: Black (BK) & White (WT)

Softwiring Leads

Flexible Steel Conduit Interconnecting Leads

SWSE5210**	20A Interconnecting Lead In Flex Steel Conduit With Heat Shrunk Boots - 1000mm
SWSE5220**	20A Interconnecting Lead In Flex Steel Conduit With Heat Shrunk Boots - 2000mm
SWSE5230**	20A Interconnecting Lead In Flex Steel Conduit With Heat Shrunk Boots - 3000mm
SWSE5240**	20A Interconnecting Lead In Flex Steel Conduit With Heat Shrunk Boots - 4000mm
SWSE5250**	20A Interconnecting Lead In Flex Steel Conduit With Heat Shrunk Boots - 5000mm

3-Pin Starter Leads with Thermal Overload

SWT5A15**	20A Starter Lead - 1500mm. 10A Plug To 20A Tag Installation Coupler With Slimline Integrated Thermal Overload, Thermal Overload 300mm In From Plug
SWT5A25**	20A Starter Lead - 2500mm. 10A Plug To 20A TAG Installation Coupler With Slimline Integrated Thermal Overload, Thermal Overload 300mm In From Plug
SWT5A30**	20A Starter Lead - 3000mm. 10A Plug To 20A TAG Installation Coupler With Slimline Integrated Thermal Overload, Thermal Overload 300mm In From Plug
SWT5B15**	20A starter lead - 1500mm. 10A Plug to 20A TAG Installation Coupler With Slimline Integrated Thermal Overload, Thermal Overload 300mm In From Socket (<i>Custom</i>)
SWT5B30**	20A Starter Lead - 3000mm. 10A Plug to 20A TAG Installation Coupler With Slimline Intergrated Thermal Overload, Thermal Overload 300mm In From Socket (<i>Custom</i>)

20A 3-Pin Starter Leads

SW55215**	20A 3-Pin Starter Lead - 1.500mm
SW55230**	20A 3-Pin Starter Lead - 3000mm

Notes:

- **Colour Options: Black (BK), White (WT)
- 20A 3-Pin starter cables are not compatible with standard 10A GPOs.

RCD and Node Boxes

RCD Boxes

CB20NW-025	Softwired RCD c/w Tag In/Out Lead—20A
------------	---------------------------------------

Node Boxes

SW72105	Node Box: 1 In 6 Out Single Circuit
SW72110	Node Box: 1 In 6 Out Dual Circuit

CMS Electracom Softwiring systems comply with relevant Australian/New Zealand electrical standards, including:

Standard	Description
AS/NZS 3000	Electrical Installations (Wiring Rules) – installation by a licensed electrician
AS/NZS 5000	Electric Cables and Associated Cable Systems
AS/NZS 61535	Installation Couplers and Connectors for Permanent Electrical Installation
