

# SPA POWER POLE

## Power Poles

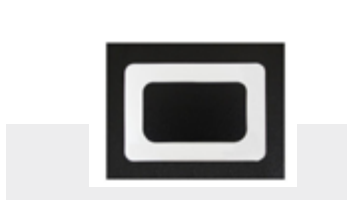

The unique rectangular profile of our SPA power pole range allows for the mounting of power and data outlets directly onto the pole itself. Using a cuttable front cover and our service mounting boxes provides the option to have outlets mounted at any height of the SPA pole.

SPA101  
Service mounting box (plastic)

SPA002  
'T Bar mounting kit

SPA005  
Ceiling flange - white

SPA003  
Floor mounting bracket

SPAL200  
200mm Pre cut cover

|         |                        |                           |
|---------|------------------------|---------------------------|
| SPA28** | 1x Power Pole 2800mm   | 1x Cover                  |
