

CMS TITAN FLOORBOX

Access floorbox shown with AV plates fitted

The CMS Titan floorbox has been designed for maximum flexibility incorporating power, data and AV to suit client requirements.

The Titan floorbox provides services directly to workstations, conference, meeting, and training rooms suitable for concrete or computer access floor applications.

The Titan floorbox has interchangeable face plate to incorporate power and specific brands of data and audio visual components.

The lid incorporates an easy grab lifting handle and an oversized cable exit cap.

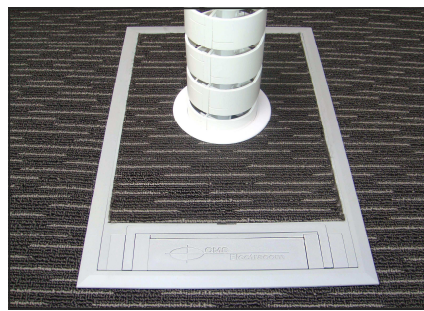

A bevelled edge carpet frame and 7mm carpet/tile recessed lid is moulded in hard wearing, high impact, polycarbonate / ABS blend Polyimide with a 2.5mm steel plate fitted for extra strength.

SOME OF THE FEATURES INCLUDE:

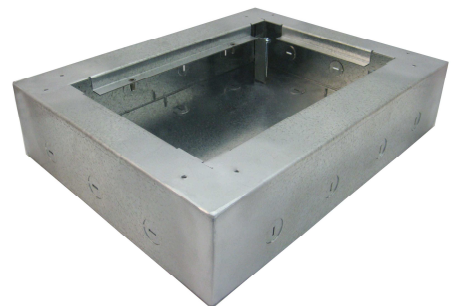

- Available in two sizes
- Interchangeable plates
- Branded AV solutions (Extron, Kramer)
- Easy grab lifting handle
- High impact lid with 7mm recess
- Concrete or Access floor applications
