

# GESRM4

## Decorative IP Floor Outlet

The GESRM4 floor outlet box is designed for use in screed, cavity and raised floor applications. When not in use it is dust and water resistant to IP65. It is ideal for P.V.C and tiled internal floors that need wet cleaning. The unit can be fitted with two general purpose power outlets and two RJ45 data / telephone outlets. The GESRM4 is also available as a directional spotlight.

The IP65 rated lid section is manufactured from die cast zinc non-slip surfacing. Surfaces available: stock nickel and aged brass.

### Key Features

#### CUT OUT SIZES:

- » DIAMETER - 135mm
