

Athena RAIL

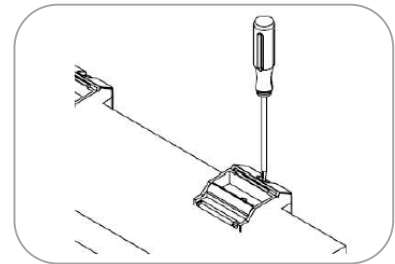

1 FIT CABLE CLAMPS

Make sure clamps sit within rail length
and do not foul on cables

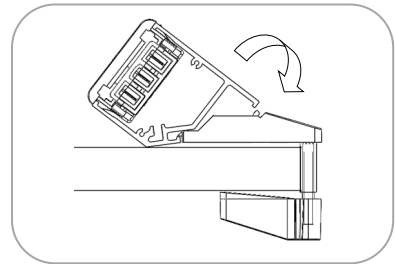

2 PLACE CABLE CLAMP ON TABLE

Tighten screws until clamp is secure but loose enough to fit
the rail

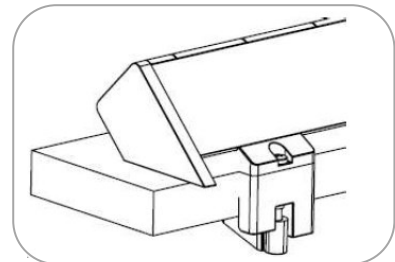

3 FIT RAIL

Position bottom edge of rail into clamp
Rotate rail towards rear desk surface
Rail will click into place

4 TIGHTEN CABLE CLAMP SCREW

Tighten screws until clamp is fully secure
DO NOT OVERTIGHTEN—TIGHTEN BY HAND ONLY

5 CONNECT TO POWER

Plug into power source.

CAUTION:

IF THE SUPPLY LEAD FEATURES AN INSTALLATION COUPLER INSTEAD OF A STANDARD 3 PIN PLUG, IT
NEEDS TO BE INSTALLED BY A LICENSED ELECTRICIAN
