IN-DESK MODULES

**PRODUCT FAMILY BROCHURE**

CMS Electracom

Simple Installation for a
Simply Brilliant Finish

Versatile & Stylish

CMS In-Desk modules offer a modern and clean design that is versatile and stylish to any workstation or desktop surface. Each offer a different range of discrete access to Power, Data, USB, HDMI and Audio Visual Provisions.

Our Executive & Accede boxes include cable guides which enable de-cluttering within their under-carriage. Each offer angled outlets, dual cable-entry and a lid that easily houses your tablet or phone while charging.

We also have many other modules available which offer fast installation, keeping labour costs low.

EXECUTIVE BOX

Borderless Elegance

The Executive box combines innovative design and technology, offering a soft-open lid mechanism together with the latest USB charging technology, resulting in a stylish, refined and advanced conferencing solution.

The Executive Lid can be veneered to match your table top, or can be left in its standard anodised silver to provide contrast. The brush strip creates a stylish finish along the long edges while keeping out any dust. Executive boxes can accommodate any custom provisions whether it be CAT6 data or HDMI to Extron and Kramer AV services.

1. Lid can be laminated on power coated veneered to match your table top or left in the standard anodised silver finish.

2. Ability to incorporate Power, Data, USB and Audio Visual, all in one box.
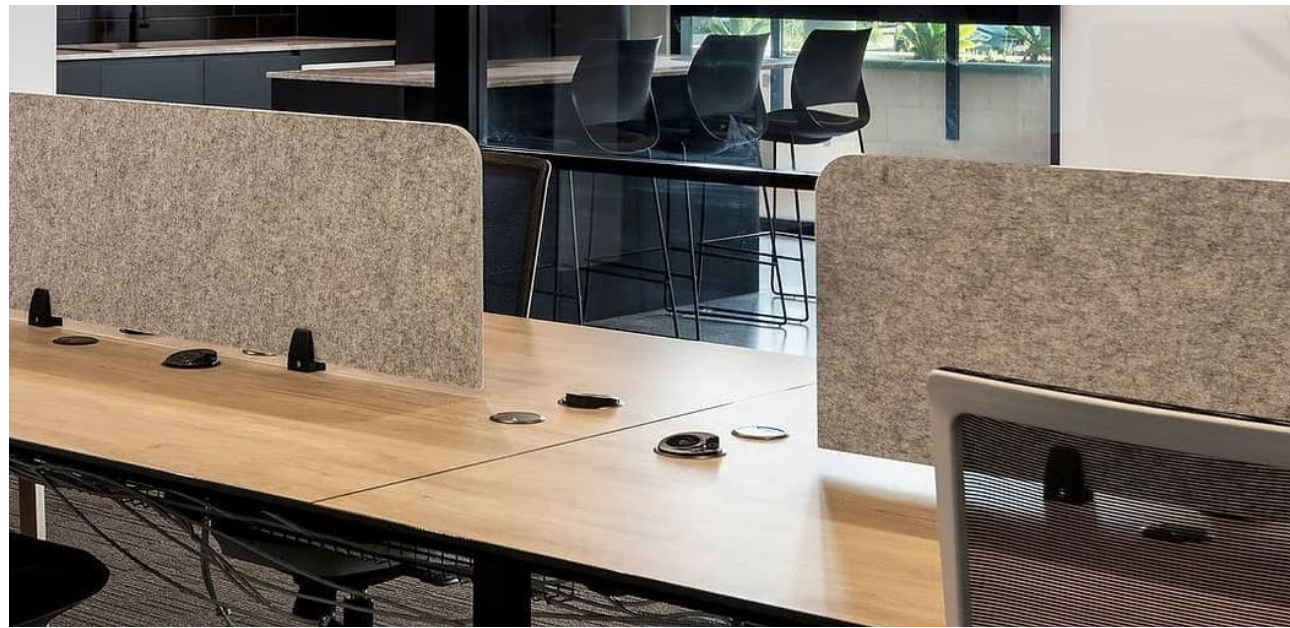

ACCEDE

Sleek & Elegant Design

The Accede series introduces a fresh, clean exterior profile, making it the ideal companion for the modern de-cluttered workspace. Accede also provides the ability to incorporate a cable guide attachment to improve cable management. It's undercarriage delivers clean, convenient access to Power, Data, AV, HDMI and USB Data/Charging.

1. The Accede introduces a fresh, clean exterior profile, making it the ideal companion for the modern de-cluttered workspace.

2. Easy access to Power, Data, AV, HDMI and USB Data/Charging with clean cable management.

KONEXUS

Stylishly Streamlined

With fingertip access access to power and charging technology KonexUS is a fit-out favourite offering auto-switched power with charging options like USB-C 100W PD fast-charging in a simple, ergonomic and easy-to-install module.

Our KonexUS module boasts a lower install profile of 76.5mm making it ideal for soft seating, collaborative spaces, hot-desks and workstations with requirements for Power, USB Charging/Pass-through, Data and HDMI.

1. Simply and easy access to power and charging technology

2. Low install profile of 76.5mm making it ideal for soft seating, collab spaces and hot-desks.

ECHO SERIES

Minimalistic Surface Design

CMS Echo series delivers the latest charging technology to empower engaging and connected spaces within the commercial workplace, integrating into personal workstations, soft-seating and collaborative spaces.

Echo is available in 3 shell sizes, Single, Duo and Trio, describing the number of modules each shell can accommodate. Echo can be equipped with any combination of USB C+A Charging, Wireless Charging and standard Power.

The module has a shallow depth of 46mm, with easy top-side installation without fastening from the bottom.

1. Minimalistic design that blends into any surface with versatile installation options.

2. Fast-charge options including 30W USB-C PD or 15W Wireless.

BLINKY

Access Power From All Angles

Blinky is a stylish recessed in-desk solution that provides 360° access to power with additional capability to incorporate USB-C/A charging if required. It is available in white or black finishes as standard.

Placed in the centre of any table, it can accommodate users from all sides. Blinky is perfectly innovated to suit shared, open or conferencing spaces.

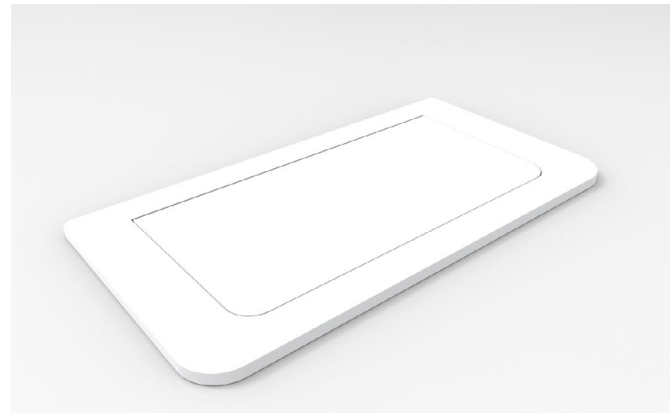

1. Stylish design solution incorporating 3 GPOs and/or 30W Type 100w C/A USB PD fastcharging.

2. Outlets feature a push-fit shutter design preventing dust and grime build-up.

POP UP

Tiny, Verstatile and Powerful

The intuitive design combines the practical a accessibility of a power rail, whilst maintaining the clutter-free design of a recessed module. Purposed to compliment single workstations, hot-desks, or training rooms, the Pop-Up can be configured to deliver a combination of Power and/or USB outlets to suit any commercial office, hospitality or residential application.

1. Intuitive design combining practicality of a power rail while maintaining clutter free design of an in-desk module.

2. Quick and Practical access to power and/or USB.

FLIP BOX

Flush & Surface Mount

The CMS Flip Box is a unique slimline in-desk power and communications module, providing an effective solution to the desktop, meeting or training/conference table.

Each of the power outlets has its own retractable cover, so when the outlet is not in use the spring loaded lid covers the socket.

1. Create that uncluttered work surface when power is not required with the retractable power cover.

2. Available surface mounted or flush with the desktop in white or black.

CENTRA

Convenient

CMS Centra Series in-desk module effectively incorporates Power, Fast-Charge USB, Data and AV into any flat desktop or vertical surface.

Centra Series modular design allows any configuration of services, making it an ideal solution for Workstations, Meeting & Conference tables, Collaborative & Public spaces, as well as vertical surfaces including screens, walls or soft furniture.

1. Auto-clamping "Paddles" enable easy top-side installation - keeping install time and labour costs low.

2. The covered outlets allow Centra modules to be recessed clean on the table surface.

ATOM

Small & Mighty

Tiny, Versatile & Powerful – ATOM delivers USB Fast Charging in a minimalistic housing designed to integrate seamlessly into loose furniture, personal workstations and collaborative/shared areas.

ATOM features an intuitive self-fastening paddle design allowing installers to surface-fit the unit without the need for a bottom fastening ring, reducing installation time onsite.

1. Self fastening 'Paddle' design allows surface-top install without the need of a bottom fastening ring.

2. Compact & Fast Charging USB Module.
