

# AFFINITY PLUS

## Fitted with scalloped end caps

*AFS0405ESL Shown*

CMS Affinity Plus Scalloped in-desk power and communications centre is an effective way of supplying power and communications connections within the workstation, boardroom, conference or meeting tables. Enables all services to be connected within the work surface with easy access through the stylish anodised aluminium lid, exit flap & scalloped end caps. The lid sits flush when in use and the unit is fully compatible with Category 6 structured cabling and beyond.

To further enhance work surface connectivity, CMS can offer a range of customised Audio Visual Provisions to suit all applications, as well as a 'Cable Dump' attachment used for excess cable.

### SOME OF THE FEATURES INCLUDE:

- The convenience of power and data at the desktop.
- Uncluttered work surface when power not required or while plugged in. Appliance cables exit through the stylish scalloped end caps
- Fixes easily into rectangular location
- Stylish finish in bead blasted natural anodised, bead blasted black anodised & white powder coat
- Strong and durable
- Fully segregated for power and data
- Available as power only or power/data/audio visual combination
- Multiple circuits and colour coded socket outlets optional
- Category 6A compliant
