

GES2

The GES 2 is a brilliantly simple concept in floor outlet from CMS. Small and discreet when you need it to be, or the centre of attention in stainless steel when you want it to be. This floor outlet is suited to every floor type, the standard model coming complete with a recessed lid to allow the easy installation of a matching floor covering. The GES will provide two GPOs wherever they are required. This box has two compartments and will accept any two of the mounting plates listed in the below.

Key Features

- » Easy-grab handle and functional cable exit when lid closed.
- » Provision for 6 standard outlet plates to suit a wide variety of Power, Data and AV requirements.
- » Angled mounting plates with cable passthrough underneath.
- » Suit both screed and raised floor applications.
- » 25 & 32mm knock-outs to suit large data access requirements
- » CAT6 & CAT6A compliant.

CUT OUT SIZES:

- » 2 COMPARTMENT - 188mm x 112mm x 75mm
- » STAINLESS STEEL - 188mm x 112mm x 90mm
