Personal Workspace

PERSONAL WORKSPACE

Compliment Your Workspace with Form and Function

Individual workspaces have evolved over the years with more interior designers seeking more subtle technology integration. With the dawn of USB and Wireless Charging delivering smaller visible footprints above the desk, you can be assured your smart phones and laptops are charging at their safe and optimal rate with integrated CMS USB-C fast chargers.

DOCKING STATIONS

The Ultimate Desktop Experience

Unleash productivity with our THD series Gen2 USB-C Docking Station. It's the first USB 3.1 Gen 2, 10 Gbps universal docking station in the market that can deliver 100W power for efficient notebook charging.

As a result, the commercial-grade USB-C docking station not only offers high-speed charging via USB-C, it also supports numerous standard peripherals and dual 4K displays. The key features of our THD series docking stations allow for remote firmware upgrade and power reboot, significantly reducing time and labour costs

ECHO SERIES

Minimalistic Surface Design

The CMS Echo module delivers the latest charging technology while still being presented in a minimalistic surface design. It provides the perfect addition with the ability to be integrated into personal workstations, soft-seating and collaborative spaces.

It can be equipped with multiple combinations whether it be USB C+A Charging, Wireless Charging and Standard Power. Installation is fast and easy without the need for fastening from underneath the desk.

TRAX UMBLICAL

Height Adjustable Cable Management

CMS Trax umbilical cable management is specifically designed for cable protection when bringing power and data cables in a height-adjustable table application.

Trax features either a single or dual compartment for cable distribution allowing power and data cabling to be run separately or simultaneously when using conduit.

DYNAMO MONITOR ARM

Configured To Move With You

Dynamo effortlessly rotates, pivots and extends, enabling tool-less and absolute adjustment to minimise eye and posture strain. In addition to its ergonomic ability, Dynamo is intuitively designed to deliver seamless handling from installation, mounting and on-going adjustment. The detachable VESA mounting plate is easily adaptable to support Laptops, MacBook, Thin-Client PC and Tablets, making it ideal for a host of applications, from commercial workstations, home office, retail and general areas requiring continual adjustment.
WIRE GRID

Eliminate Workplace Clutter

The CMS Wire Grid Series provides a simple yet effective solution to a clutter-free workspace, keeping cable mess under control under the desk.

Wire Grid series mounting brackets screw to the underside of the workstation or back into the modesty panel and allows the basket to 'snap' into the bracket. These baskets can also be cut to a custom length with the new plastic end caps available to tidy up the trimmed ends.
SOFTWIRED GPO

The SW18 Series GPO, is available in a wide range of configurations including switches, round earth and rotated. They are a perfect addition to your workstation and can be easily mounted on the wire grid baskets.

Whether your looking for duo, quad or 6 gang power outlets, the SW18 series GPO's are the ideal choice for simply softwired power..
