## STYLISH POWER RAILS

CMS offers 4 different power rails: Athena, Nova & Viva , Zeus, Odyssey.

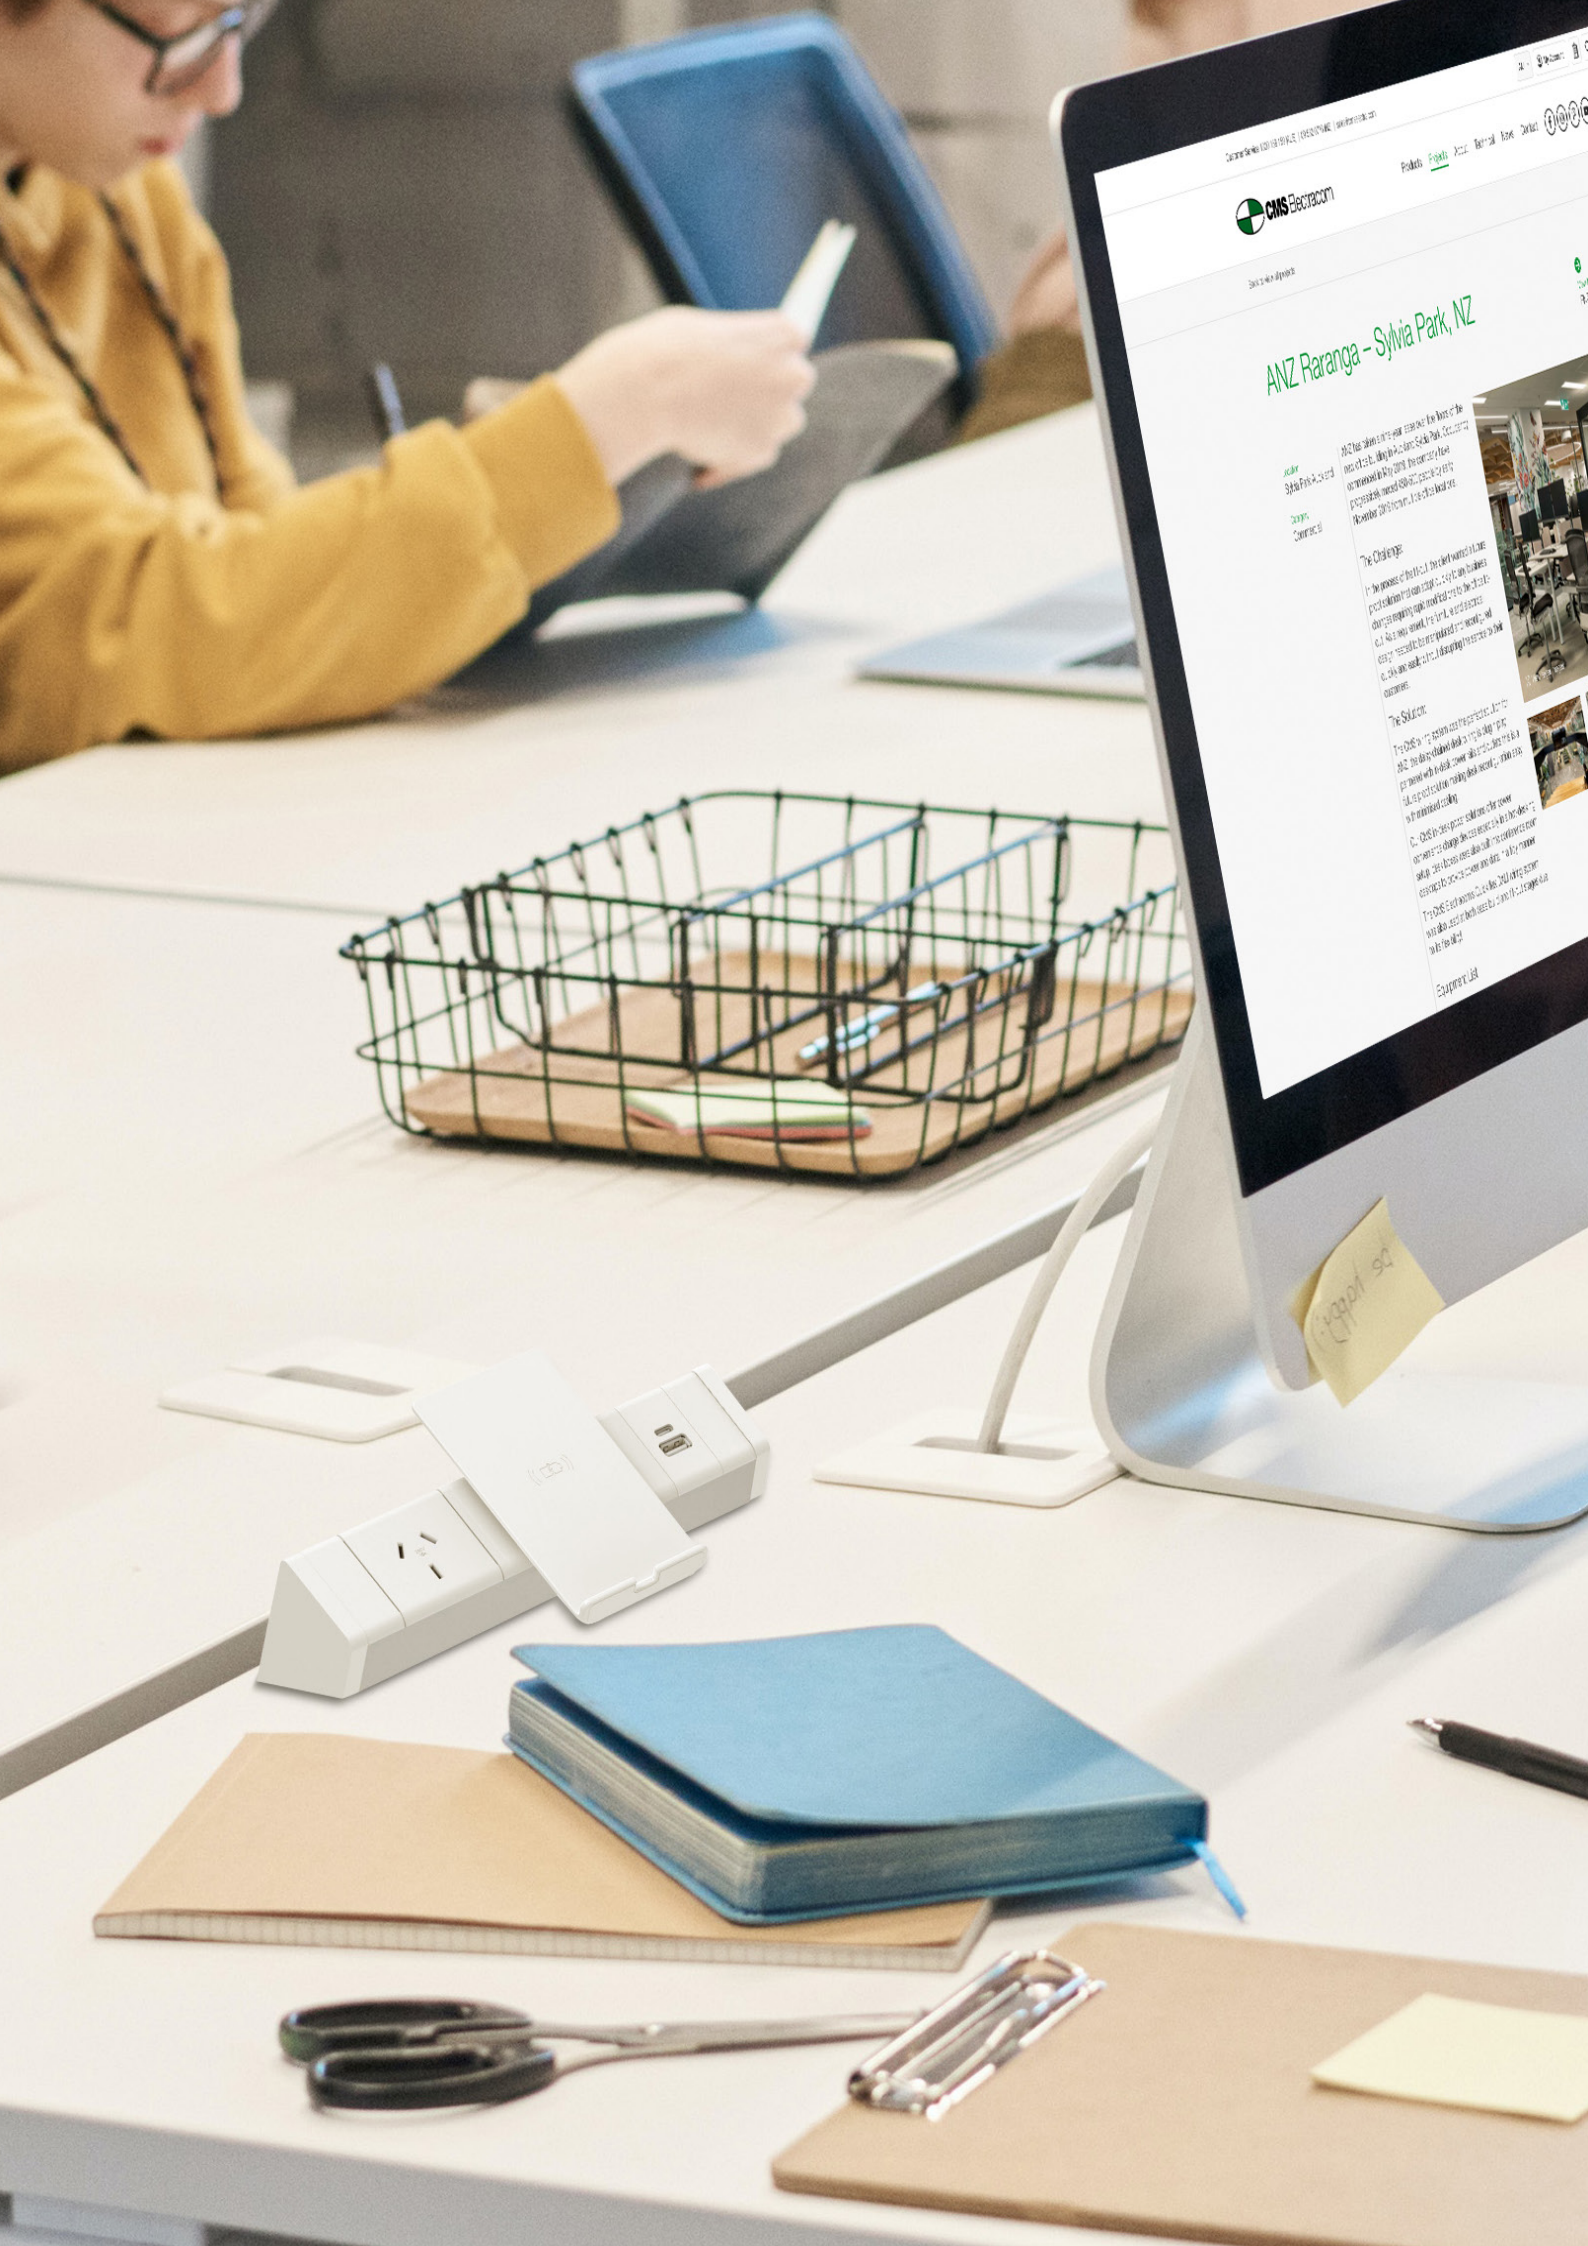

Our power rail range has been designed to provide power, data and USB charging capability to the desk top for commercial applications.

For a sleek finish, these can be mounted at the rear of the work surface or on a function wall, available with desk clamp brackets and also a standoff bracket when retrofitting against a screen.

Our latest Nova & Viva range has the ability to be mounted either above or below the desk.

# ATHENA POWER RAILS

## Multiple Solutions

The Athena power rails are a stylish design solution for any workplace. They are available to order with a wide range of power, USB, wireless charging & data possibilities.

Athena rails are completely customizable to any length and specification you require with powder-coating options available.

1. A stylish design solution for providing power and/or data to the workspace where it is easily accessible - above the worktop.
2. Standard Athena Rails come in a natural anodised finish with black or white end caps and sockets. We can also provide customizable solutions.

## NOVA & VIVA POWER RAILS

### Sleek & Elegant Design - Above or Below the Desk

CMS Nova and Viva began as a blank sheet design, a passion project to re-invent personal access to power and technology above the desk.

Nova & Viva starts with a one-piece moulded design, with complimentary finishing touches including deep perspex gloss and textured-matt finished fascias. They offer a versatile style for the body, including optional soft-touch fabric to present even more options to deliver contrast or concealment within the application space.

1. Nova & Viva power rails can be mounted either above or below the desk as a duo or trio set up.
2. A Sleek and Elegant design which can be finished in gloss, matte or fabric fascias.

# ZEUS POWER RAILS

## Beauty and Substance Combined

A complete range of electrical protective devices and international socket types can be ordered with your power rail.

We can provide a completely customizable solution to any length and specification you require with power-coating options available.

1. Zeus has undergone a re-invention to deliver cutting-edge technology services coupled with easier and more versatile installation options, while retaining it's simple, timeless design.
2. Now available to be specified with advanced inline services like USB-C and a fast charge, as well as our HELIPAD wireless + USB charging module.

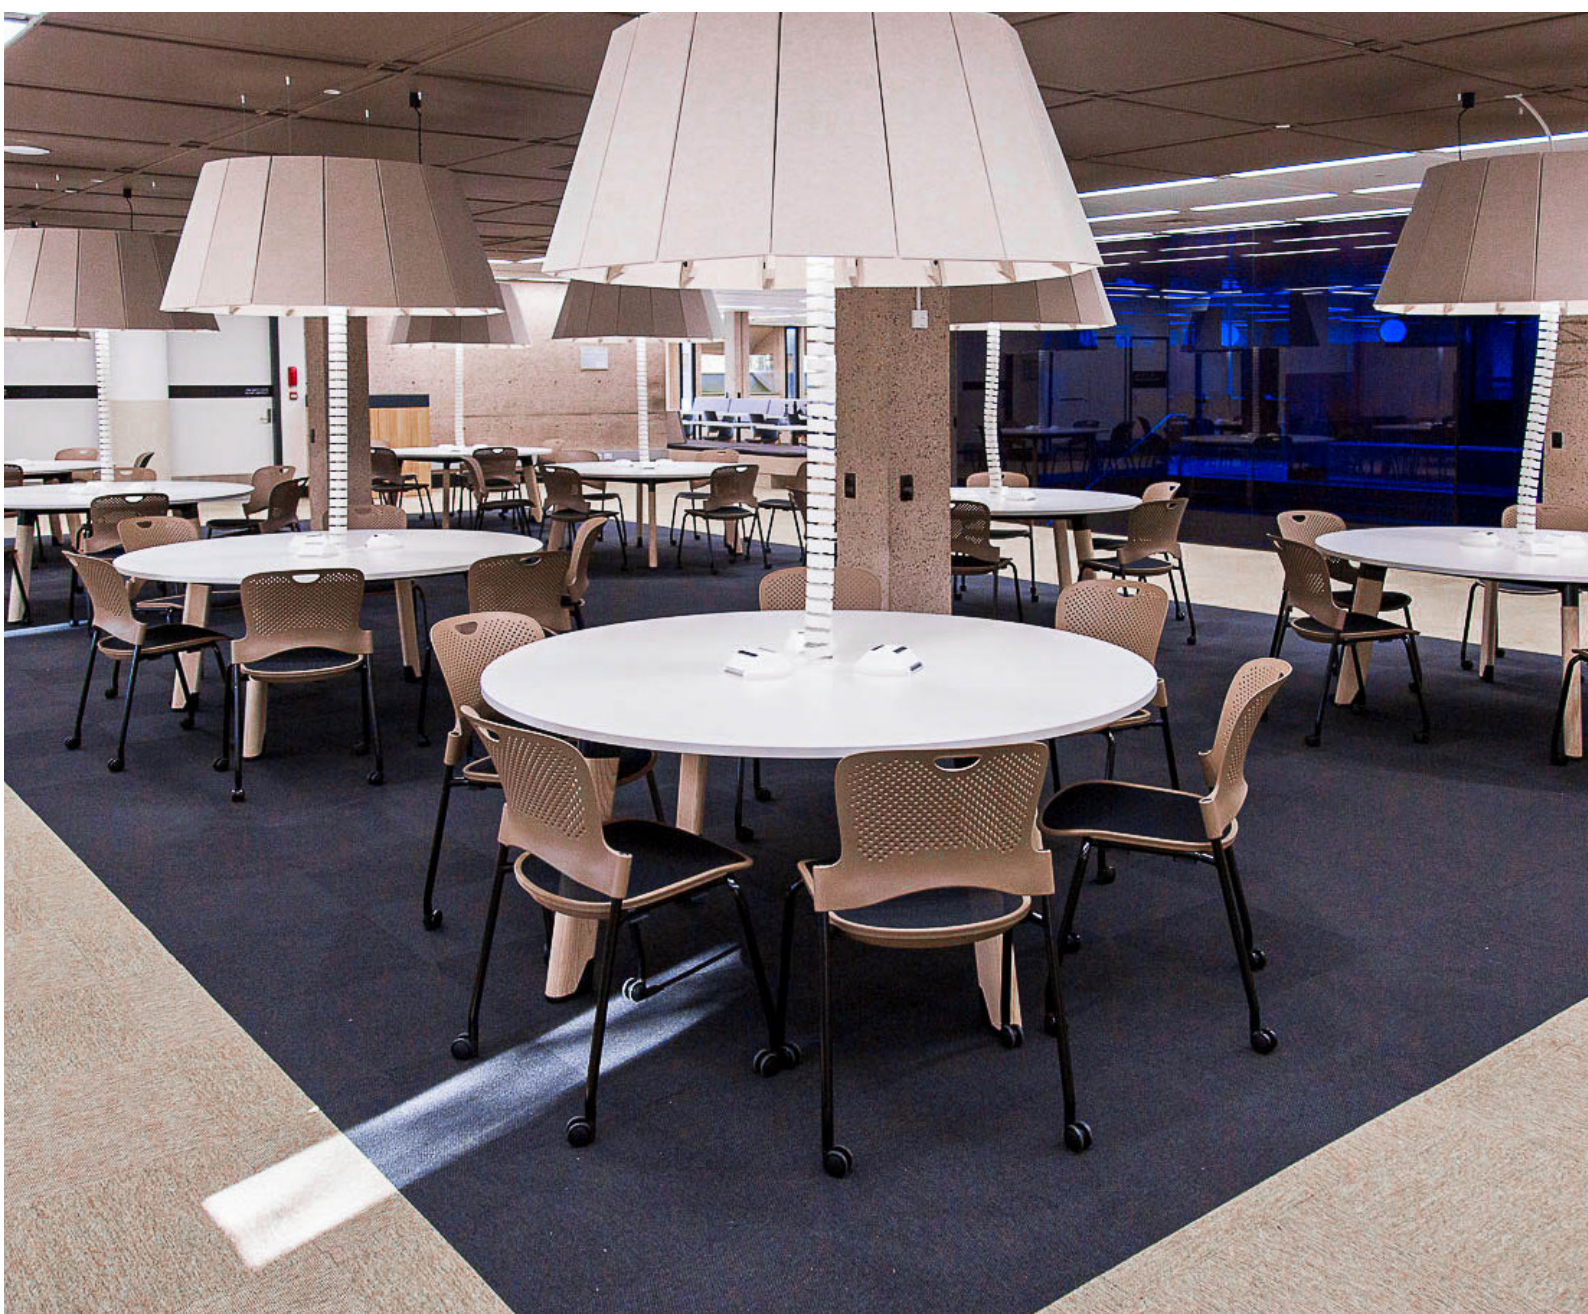

# ODYSSEY POWER RAILS

## Surface-Mounted Service Hub - Collaboration Areas

Odyssey is surface-mounted service hub that adopts a unique trapezium-shaped profile, giving users multi-directional access to power, USB-C fast-charging and AV inputs to suit collaborative, conferencing and general areas.

1. Access to power, USB Charging and AV from both sides of the desk.
2. Perfect for collaborative, conferencing or general areas.
