Retractable Ceiling Power & Charge Module

Smart Solution For Agile & Modular Spaces

Today's modular/agile workspaces are designed to accommodate a wide range of applications including; workstation clusters, conferencing, training and collaborative/shared spaces. Integrating power & charging technology has always been challenging as the wiring is typically anchored from the ceiling or floor.

ELEVATE AUTO

Retractable Power through Remote Control

Elevate is one of the latest innovations in power solutions by CMS - a retracting power module summoned easily via a switch or remote. Elevate delivers unprecedented access to power and USB charging into spaces subject to changing configuration by simply retracting into the ceiling when not in use.

1. Retractable Power Module configurable with Power & USB charging ports.
2. Through the click of a button, the unit retracts neatly into the ceiling when not in use.

ELEVATE MANUAL

Retractable Module through Push-Pull Mechanism

Elevate Manual is a retracting power module accessed easily by pulling it down from ceiling. It delivers unprecedented access to power and USB charging into spaces subject to changing configuration. Using the simple push-pull mechanism, it can easily retract back into the ceiling when not in use.

1. Neat eyelet attachment located at bottom of module for out of reach storage.
2. Simply access to Power & USB Charging in modular spaces.
