## Low-Profile Floor Box (60mm Deep)

The CMS Apollo Floor box has been designed for maximum flexibility to suit client requirements, with standard off the shelf component catering for most applications. Incorporated in the lid is an easy grab lifting handle and an oversized cable exit cap. The oversize exit cap ensures all cords exiting are contained within.

A bevelled edge carpet frame and 7mm carpet recessed lid are moulded in hard wearing, high impact poly carbonate / ABS blend polyimide with a 2.5mm galvanised steel plate fitted into the lid makes this one of the toughest boxes yet. The carcass and mounting plate are constructed from powder coated steel producing a long lasting robust unit. Multi directional lid comes as standard in soft grey with other colours available on request (MOQ apply). Behind our communication mounting plates is a 50mm cavity catering for popular AV and communication requirements.

### Key Features

- » Available in 2, 3 and 4 compartment options
- » Extra large cable exit flap
- » Easy grab lifting handle
- » Multiple cable entry points
- » Increased capacity for AV & Data
