GESRM2
Decorative IP Floor Outlet

A simple solution just got clever. The GESRM2 floor outlet box is designed for use in screed, cavity and raised floor   applications. When not in use it is dust and water resistant to IP65. It is ideal for P.V.C and tiled internal floors that need wet cleaning. The unit can be fitted with one general purpose power outlet, two RJ45 data / telephone outlets, or one auto switched power outlet and two RJ45 data / telephone outlets. The GESRM2 is also available as a directional spotlight.

The IP65 rated lid section is manufactured from die cast zinc non-slip surfacing. Surfaces available are: stock nickel and aged brass. The undercarriage is manufactured from 1.2mm galvanized steel.

Carpet trim lid

Butted-edge lid
