

# NEO BOX

In-Desk Module

## NEO BOX

### In Desk Solutions

Our NEO In-Desk Box provides an effective way of supplying Power, USB Charging and AV/Data connections to a Meeting, Conference or Boardroom Table.

When not in use, the lid sits nice and flush with the table top and once opened, the lid retracts neatly into the box enabling all services to be easily accessed from either side of the table.

The NEO Box is available in either a single or dual lid option depending on its internal requirements. The aluminium lids also have the ability to be veneered or laminated to blend in with the desired table top finish.

### Key Features

- Lids have brushed strips to keep out dust and dirt
- Lids can be veneered or laminated
- Stylish finish in bead blasted natural anodised
- Easily fixes into location
- Fully segregated for power and data
- Category 6A compliant
