

FLIP INDESK BOX

CMS Electracom's Flip box is a unique slimline Indesk power & communications providing an effective solution to the desktop, meeting or training/conference table.

Each of the power outlets has its own retractable cover, so when the outlet is not in use the spring loaded lid covers the socket. The 3 gang communications unit is available in

SOME OF THE FEATURES INCLUDE:

- The convenience of power and data at the desktop. Uncluttered work surface when power not required or while plugged in.
- Fixes easily into rectangular location
- Available surface mounted
- Stylish finish in white
