

ROHS - INTERCONNECTING CABLES

Ordinary duty

Ordinary duty leads are used for power distribution within furniture. Interconnecting cables are manufactured from 3 core 1.5sqmm flexible cable. They are rated at 16amp and are terminated with new male and female 'CMS' BS EN 6135:2009 compliant connectors. Interconnecting cables are available in standard lengths from 1000mm, in 1000mm increments.

Cable and connector colour comes in white or black.
