

## UK18 SERIES POWER MODULES

---

1. Power modules screen/panel mounting up to 2mm thick  
(UK1802WT Shown)

CMS Electracom proudly introduces a fresh face to the Power Module market with the introduction of our new UK18 Series range of service outlets.

The UK18 series is the latest generation of socket outlet designed by CMS Electracom. Power module couplers complying to the new connector standard which are integrated into the moulding. They comply with IP4X and hence there is no requirement to use safety end caps or tool only removable connectors.

The UK18 series offers significant installation benefits as no tools are required for thin or thick panel mounting. This speed of installation offers excellent labour savings.

- Double pole power module units available fused, unswitched and switched
- No tools required to install in duct or panel mount, making site installation very fast and cost effective
- Available with 2, 4 and 6 socket outlets
- Requires one cut out for thick or thin panel mounting
- Colours available: black, white, silver
- Slim and compact 2 socket outlet design (only 18.5mm from under face plate)
- Compliant with BS EN 61535:2009
- Mounting options include: thin panel (up to 2mm thick), thick panel (greater than 2mm thick), din rail mounting, duct mounting or free standing

# UK1802 - DOUBLE POWER MODULE
