

ZEUS POWER RAIL

UZ2U10CWT Shown

CMS Electracom's Zeus Power Rail provides a practical aesthetic on desk solution for providing power and/or data, whilst retaining the maximum work surface area.

Zeus as with all our rails incorporates our latest UK18 series power modules. This enables modules to simply to snap into the natural anodised aluminium extruded profile, complimented by an extensive range of corresponding facias/outlets for voice, data, audio and video.

Zeus is supplied pre-wired with an integral starter lead. Interconnectivity between desk/modules is achieved by CMS Electracom's power and data products, which comprise of IP4X tag connector. Its design eliminates the requirement of additional end caps in accordance with BS EN 61535:2009.

SOME OF THE FEATURES INCLUDE:

- Range of standard configurations are available
- BS1362 fuse resilience and ease, 3A & 5A ratings
- Rapid fit desk mounting brackets
- Category 6A structured cabling compliant
- Can be customized to any length and specification you require
- Choice of component colour options 1.e. End caps, power modules, facias
- Supplied with compact Tag power connector system and 500mm 20amp flex cable and 1-in 2-out T-piece
- Readily customised to any length of specification due to modularity
- Cable free internal power assembly

ORDERING INFORMATION	
PART NO.	DESCRIPTION
UZ210C**	2 power, 3.0A fused, 1m starter lead, C series connector
UZ210G**	2 power, 3A fused. 1m starter lead, GST series connector
UZ210**	2 power, 3A fused. 1m starter lead, BS 13A fused plug
UZ2U10C**	2 power, 3A fused and a dual USB Charger. 1m starter lead with a C Series connector
UZ2U10G**	2 power, 3A fused and a dual USB charger. 1m starter lead with a GST connector
UZ2U10**	2 power, 3A fused and a dual USB charger. 1m starter lead with a BS 13A fused plug
UZ2202A20**	2 power, 3A fused. 2m starter lead with a BS 13A plug. 2 no. CAT 6 UTP data with 2m RJ45 leads
UZ430**	4 power. 3m starter lead, BS 13A plug
MDCLZ**	Desk clamp—Zeus 2 no. required per rail
