DYNAMO CROSSBAR MONITOR ARM

CMS Dynamo's are a dynamic monitor arm range are intuitively designed to deliver seamless handling across installation, mounting and adjustment. The RDMM9 cross bar minimises contact, but maximise support

Optimize your space instantly by utilizing the wasted areas previously taken up by traditional monitor stands.

Get more with less through our unique and robust system whereby only one crossbar is required to support two monitors. The result when applied on a large scale throughout the workspace, results in significant cost savings.

The independent, quick release mounting VESA plates provide effortless rotation, pan and tilt for custom positioning of each monitor.

Increase work efficiency without compromising comfort with dual display capabilities. The RDMM9DC, plus crossbar provides a wider viewing angle and allows multitasking across two monitors.

Freedom to Move

- 360 Deg. on-the-fly landscape and or portrait options
