

# CENTRA RAIL

---

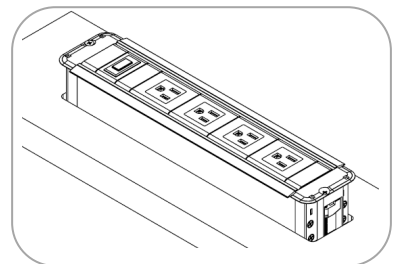

## 1 CUT OUT

Determine desired orientation of product and cut hole.  
Refer sales drawing for correct cut-out size

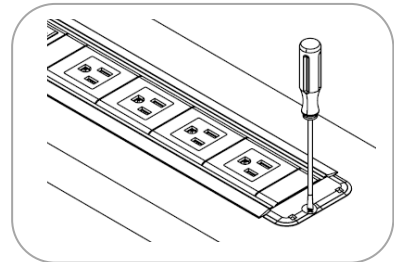

## 2 INSERT PRODUCT

Insert housing into hole

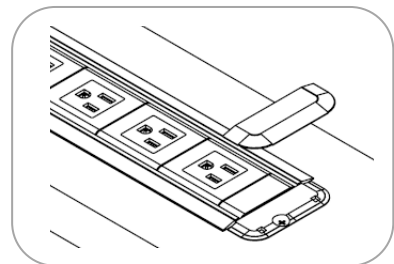

## 3 TIGHTEN SCREWS

Tighten screws until assembly is secure.  
DO NOT OVERTIGHTEN—TIGHTEN BY HAND ONLY

## 4 CLIP ON END COVERS

Align clips and push covers into place

## 5 CONNECT TO POWER

Plug into power source
