DYNAMO
Monitor Arm

Dynamo
Ergonomics - Dynamic Monitor arm

CMS Dynamo is a dynamic monitor arm intuitively designed to deliver seamless handling across installation, mounting and adjusting.

Developed to move with you, Dynamo effortlessly rotates, pivots and extends, enabling tool-less and absolute adjustment to minimise eye and posture strain.

The detachable VESA mounting plate is easily adaptable to support Laptops, MacBook, Thin-Client PC and Tablets, making it ideal for a host of applications, from commercial workstations, home office, retail and general areas requiring continual adjustment.
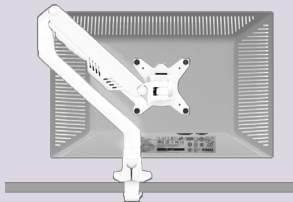

For curved screens and thin-client, mounting the Dynamo HD Tilter is an added accessory required to support the changing workplace requirements.

Colors Available

○ White ● Black

Key Features

Freedom to Move

- Tool-less rotational portrait-landscape adjustment.
- 180° locking mechanism for lateral arm movement.
- Dynamic gas strut for tool-less height and tilt adjustment.

Modular Installation

- Detachable VESA plate allows independent monitor mounting.
- Top-access install clamp-base eliminates under-table installation.
- Suits 0.4"-1.8" top thickness.
- VESA-mount laptop tray available.

Quality Components

- Backed by a 5yr warranty.
- Dynamic arm tested to 100,000 cycles for stability at any angle.
- Load rating of 4.41-17.63 Pounds *(Flat Screen Only)*
- Resolved cable management with clips and detachable covers.
- Max Screen Size 17-30"

Notes:
- ** Denotes Color: White (WT) or Black (BK)

Dynamo HD Tilter

1. **Regular Tilt Adjustment**
2. **Enhanced Tilt Adjustment**

Dynamo with 100W USB
## Ergonomics - Integrated USB Charging

We have designed and developed a 100W USB A/C Spacer that can slide in between the desk and Dynamo clamp before the monitor arm is installed. The USB Spacer can then plug into our 100W Inline Module which would normally be mounted underneath the desk and connected into CMS softwiring.

Colors Available
